A New Beautiful Long Beach Landscape

LONG BEACH, CA - The Long Beach Water Department would like you to apply to receive a Beautiful Long Beach Landscape Grant of up to \$5,000 to beautify your property, decrease your water use, eliminate unnecessary runoff and chemical use, decrease time and money spent on maintenance and increase butterfly and hummingbird habitat. Grants are available to **501 c (3) and 501 c (4) corporations and organizations, as well as public agencies.**

Attached are pictures of the Water Department's recently completed Water Education Garden located at the Department's Administration Building at 1800 E. Wardlow Road. The garden, funded through a grant by the United States Department of Interior, Bureau of Reclamation, provides Water Department customers a template by which they may plan and create their own Beautiful Long Beach landscapes at their home or place of business. Find out more at www.lbwater.org.
