**LAWN-TO-GARDEN**

We are offering a higher incentive and a no-cost or low-cost professional design tailored for your front yard. Starting July 1, 2018, LBWD will now provide an incentive of **up to $6,000** that will include $3 per square foot for up to 1,500 square feet and up to $1,500 in design reimbursement for all new Lawn-to-Garden participants.

Your new garden will feature stormwater retention, the use of California native or flowering plants and drip irrigation. Create a watershed garden and see your front yard come alive with beauty and butterflies while making water efficiency the Long Beach way of life!

*Applications will be accepted starting July 1, 2018 and projects will be limited to 150 per year. Don’t miss out!*  

Go to llawntogarden.com for more information and to apply.

**LBWD’s Annual Water Quality Report Available Online July 1**

Our annual Water Quality Report, also known as the Consumer Confidence Report (CCR) provides information as to how well our drinking water meets and exceeds water quality regulations. We appreciate you reading this report and learning more about what we do to safeguard your drinking water. To read the report go to lbwater.org/annual-water-quality-report. If you would prefer to receive a paper copy of the CCR, please contact us at 562.570.2482 or pick one up at your local library branch.
Summer Seafood Spots

Looking for a fresh and delicious meal this summer? Check out the Certified Blue Restaurants that specialize in seafood dishes. These businesses have implemented water efficient devices and practices that conserve water every day.

Hak Heang (2041 E Anaheim St)

Nestled in the Cambodia Town business district, Hak Heang demonstrates their commitment to water efficiency by using an air-cooled ice machine. By choosing to cool with an air-cooled model, restaurants can save around 326,700 gallons of water annually.

Maru Maki (745 E Broadway)

Dish washing can be one of the most water intensive uses in restaurants. At Maru Maki, an Energy Star rated dishwasher uses half the amount of water than a traditional model.

Poke Pola (5040 E 2nd St)

Poke Pola received free low-flow aerators on kitchen hand sinks and restroom faucets through the CBR Program. This change will result in thousands of gallons saved every year!

Sophy’s Food & Music (3240 E PCH)

Sophy’s received a brand new pre-rinse spray valve to lower water waste during dishwashing. This free device provided through the CBR program retains high pressure while reducing flow- a win-win for kitchen and water efficiency!

Visit blue.lbwater.org for a full list of Certified Blue Restaurants to eat at this summer!
